Taking a Closer Look at Your Staff...

The Workforce Information Team

The Workforce Information team are experienced professionals who have been delivering workforce information solutions to NHS organisations since 2002. An example of their innovative work is the **Manager's Toolkit**.

Manager's Toolkit

The Workforce Information team have developed a **Manager's Toolkit** to provide managers with accurate and regular workforce information. The **Manager's Toolkit** consists of a suite of reports created and delivered using web-based technology, eliminating the need for paper based outputs. With full security in place, managers can view a selection of reports against each cost centre for which they are responsible.

For example, the **Staff in Post Report** lists all staff within your cost centre, with:

- Date of birth
- Gender
- Position
- Staff group
- Salary information
- Age range

...all the data you require, instantly.

What our customers say...

"The Workforce Information team offer an invaluable service to the HR function through monthly, quarterly and adhoc reports. I have always found them very accommodating to any requests made with very quick turn around times."

Kristina van Egmond, HR Advisor
Peterborough Community Services

"Working with the team provides the Trust the opportunity to gain expert help in the field of workforce information and analysis."
